AgGrowLime

A Manufactured Ag Lime Supplement

AGRICULTURAL LIMING MATERIAL GUARANTEED ANALYSIS (Dry Weight Basis)

Minimum Percent Calcium	20
Minimum Percent Magnesium	6
Minimum Total Neutralizing Power (by titration)	75*
Minimum Effective Neutralizing Power	1,500 lbs/ton
Minimum Percent Passing #8 Mesh Screen	100
Minimum Percent Passing #20 Mesh Screen	98
Minimum Percent Passing #60 Mesh Screen	90
Minimum Percent Passing #100 Mesh Screen	90
Maximum Percent Moisture Content	5
Average pH (paste)	pH12

*Expressed as percent Calcium Carbonate

Ohio Registration: License Number 104375

Recommended Application Rates: Specific recommendations for application rates to raise pH should be obtained from soil testing. Excessive application of AgGrowLime or any liming agent can result in soil pH higher than desirable for plant growth.

Storage recommendations: Store AgGrowLime in a dry place not in direct contact with groundwater or surface water. Phoenix recommends that AgGrowLime be applied within 30 days of purchase to avoid formation of clumps.

AgGrowLime is not to be used as an animal feed additive. Phoenix recommends waiting 30 days after application before allowing grazing.

CAUTION: May cause eye and respiratory tract irritation. Avoid contact with eyes. Avoid breathing dust. Use with adequate ventilation.

FIRST AID: EYE — Flush immediately with plenty of water for at least 15 minutes. Call a physician. INHALATION — Remove to fresh air.

For further information see Material Safety Data Sheet (MSDS) for this product.

AgGrowLime is Produced by
Phoenix Services, LLC
(Pulverized Slag By-Product
from the recovery of steel
from steel slag.)
