Clyde;

Ok, thanks. I consider the notification complete and you can conduct activity in Indiana during 2015 in compliance with 327 IAC 6.1-6. Remember that a report will be due at the end of January 2016 in which you will need to report total volume (dry tons) used in Indiana as well as copies of analyses. I will send you an e-mail right around this time next year reminding you about the report and the need to submit notification for 2016.

Clyde

Since the notification didn't include the lab data that you had sent earlier for me to review, please verify which waste stream the notification is for. I assume non-moly but need your verification. Have a great Christmas.
